

THE ULTIMATE COMMUNICATIONS TOOL FOR LIFE-SAVING OPERATIONS.

REAL-TIME PLATFORM

GlobeKeeper empowers enhanced and secure communications for high-speed data and media transfer between team, unit, and agency members — regardless of hardware or location.

GLOBEKEEPER MONITOR

Our Web-based command and control application — instantly accessible and mobile-ready — enables real-time monitoring from fixed operations centers and on-site command stations.

IOT INTEGRATION

We can seamlessly integrate your existing hardware — including cameras, tablets, GPS devices, and other Bluetooth-enabled hardware — with our secure communication protocols.

ENCRYPTION TECHNOLOGY

GlobeKeeper's innovative technology provides the most secure encryptions available — ideal for bulletproofing your live-streaming audio/video, instant messaging, and file transfer.

SECURE DATA EXCHANGE

GlobeKeeper harnesses the most advanced encryption techniques with our proprietary key-exchange protocols for secure transfer of real-time encrypted data with zero latency.

MEASURE PERFORMANCE POST-MISSION

GlobeKeeper sharpens your post-mission debriefing results to a razor edge, enhancing agent performance review, command decisions assessment, and focused strategic preparations.

OPERATING BUDGET IS A CONCERN

GlobeKeeper's IoT integration keeps your costs to a minimum by functioning seamlessly with your existing external hardware devices.

FAST INSTALLATION AND TRAINING

Because your agents are able to operate with their own familiar mobile devices, GlobeKeeper is guaranteed to have your team up-and-running quickly with minimal training time.

**CONTROL YOUR TEAM.
RESPOND TO THREATS.
EXECUTE YOUR STRATEGY.**

YOUR MISSION IS TO PRESERVE LIFE

If you're in the business of protecting life and property, trust GlobeKeeper to give your team a definitive edge over the multitude of challenges you face with every mission.

YOUR TEAM'S SAFETY COMES FIRST

Let GlobeKeeper give you the confidence to maintain mission integrity and keep your team intact by securing identities, resource deployments, and critical mission data.

YOUR SITUATIONAL AWARENESS IS PARAMOUNT

GlobeKeeper enables continuous monitoring of team position and status, coupled with active management of emergency notifications.

GLOBEKEEPER IS THE ALL-IN-ONE TEAM COMMUNICATION AND TRACKING PLATFORM POWERED BY A SMARTPHONE.

Our technology allows instant, continuous, and synchronized GPS-enabled location and communications monitoring of field teams by command personnel.

GlobeKeeper features real-time image, audio/video, texting, and file streaming between individuals and teams.

The result is enhanced situational awareness for sharper decision-making and resource control during the course of the mission.

Post-mission, GlobeKeeper saves all data securely in the cloud or in your on-premise servers for debriefing, performance evaluation, and strategic planning.

BOUNDLESS TEAM COMMUNICATIONS. ABSOLUTE SITUATIONAL AWARENESS.

OUR MISSION

GlobeKeeper empowers life-preserving organizations with innovative communication technologies that secure team safety, protect sensitive data, and enhance mission results.

ABOUT GLOBEKEEPER

GlobeKeeper was founded in 2014 and developed to be the premier strategic and tactical operations communication solution for law enforcement, military, and government agencies.

Since that time, we've sharpened our innovative platform to include the unique demands of first-responder, education, and commercial organizations.
