

EZRAIDER ALL TERRAIN ADVENTURE

WE INVENTED

A NEW VEHICLE CATEGORY

NOW KNOWN AS:

**STAND-UP
PERSONAL ATV**

OUR INNOVATION & VISION

The new vehicular category we invented enables you to ride on a narrow, stable, and safe, four-wheel vehicle with extreme off-road capabilities previously solely reserved for mountain bicycles and dirt bikes.

This new vehicle category provides a unique riding experience that feels like a combination of surfing and riding a dirt bike with the stability of a four-wheel vehicle.

These unique characteristics and capabilities place the EZRaider at the forefront of all-terrain & urban eco-friendly personal mobility.

WE ARE THE GO-TO

tgodfrey155 I can't tell you how much this machine has changed my life. I can go on hikes and runs with my lovely @courts_godfrey finally! This part got a little sketchy due to the narrow trail covered in snow and ice on a steep hillside. I told Courtney to make sure she kept filming in case I fell. The back end only slipped out a couple of times but we made it! Thank you @ezraiderus for creating such a magnificent machine that's opened doors for me to explore again. Unless you've lost your mobility you will won't understand this feeling. I'm a lucky guy to live the life I live. #boondockin

tgodfrey155 A nice stroll

I sure do love being able to go on strolls with @courts_godfrey enjoying nature. She runs and I just cruise on my @ezraiderus . That's why she is breathing so hard and I don't break a sweat. She is also like a little kid filming. She is getting a great shot and she sees a frog and gets sidetracked 😂😂 I am thankful to live in the times that we do to have the technology we have. I am a grateful man to be able to live life.
